

Build	Web version could be set up successfully. Reviewers did not have mobile emulators, and were not able to test iOS or Android versions.
Legibility	Code looks legible and follows some level of organization. More comments would be appreciated.
Implementation	Web implementation seems to match the requirements very well. One reviewer had concerns about polish and ease of interactivity on the mobile platforms.
Maintainability	Some unit tests would be good to have for the Web and iOS interfaces.
Maintainability	One reviewer commented that they would like more clear instructions in the README.
